My dear Mirza sahib,

Thanks for your telegram of 7th asking me to fix my date of arrival in Mysore in the first week of December instead of 26th instant. It reached me just in time when I was going to wire to you saying that I propose reaching Mysore on the 18th or 19th instant The reason of this was that the marriage of my nephew is now fixed for the 14th of January and I have to do all the arrangements. So under these circumstances I thought I must keep up my promise to visit Mysore , but reach there earlier, make a shorter stay and return home in time. Now to reach there in early December and return in time is impossible. After all this long journey it is absurd to stay at Mysore just a four or five days. Therefore under these circumstances I very much regret that I must postpone my visit to Mysore till the nextyear. I do hope H.H.will understand and under the circumstances excuse me for not being able to fulfill my promise.

You said in your letter that you were writing, so far I have not recie any letter. I hope it has not been miscarried.

As regards the information you wanted re the transfer of Goona and Agar to Rewa and Gwalior. In both these stations ever since the State troops had revolted Central India Horse were located, and just that portion where they lived was called military station. These have now been withdrawn and therefore those compound little things have been declared as transferred to the State jurisdiction. I do not think [illegible] can have any useful effect on our case. The delay in replying this was due to my unsettled programme. I went to Delhi on the 13th and have just returned from there.

As regards your letter of 1st asking my advice if H.H.should write

to H.E.The Viceroy about the C.& M. station surplus in the way of reminding him to expedite matter I do not think there is any harm in writing to him. I believe the matter has gone to England.
It is indeed a great disappointment to think that we are not to meet in the near future, but such is the world and a man is so tied down and is helpless.

مادرچہ خیالیم و فلک درچہ خیال

Hoping this finds you in sound health With kindest regards

Ever Yours

Wajid-Ameer.
